Willow Gazebo

English SSI58B

Assembly Instructions

Before assembly

- We recommend that time is taken to read the instructions before starting assembly, then follow the easy step by step guide. The instruction sheet is only a guide to the assembly. Certain items may not be shown to scale.
- Check all components prior to assembly
- This product should be assembled by no less than 2 people.
- Never attempt to erect the assembly in high winds.

Recommended tools for assembly

- Step Ladder
- Pliers

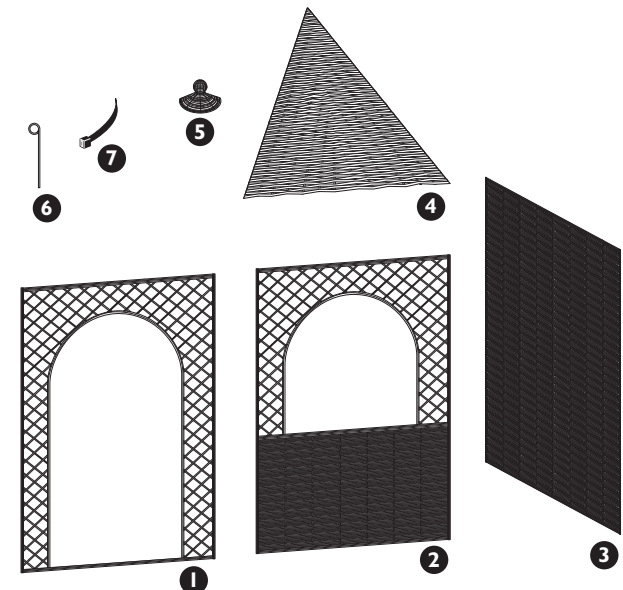

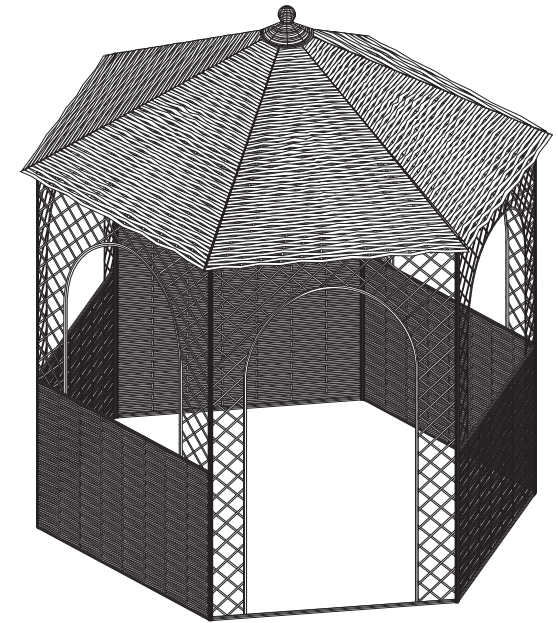

Caution

The willow Gazebo is best positioned in a sheltered area of the garden, it is recommended that this gazebo be taken down if high winds are forecast.

A large build up of snow on the roof may cause collapse. During snowy weather regularly brush the snow of the roof. It is recommended to take the gazebo down if snow is forecast.

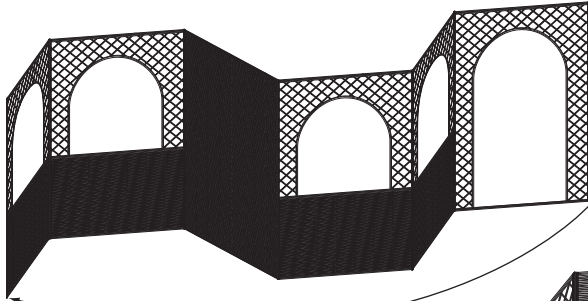

No.	Components	Qty.
1	Door Panel	1
2	Window Panel	4
3	Back Panel	1
4	Roof Panel	6
5	Finial	1
6	Pegs	6

No.	Fixing kit	Qty.
7	Zip ties	100

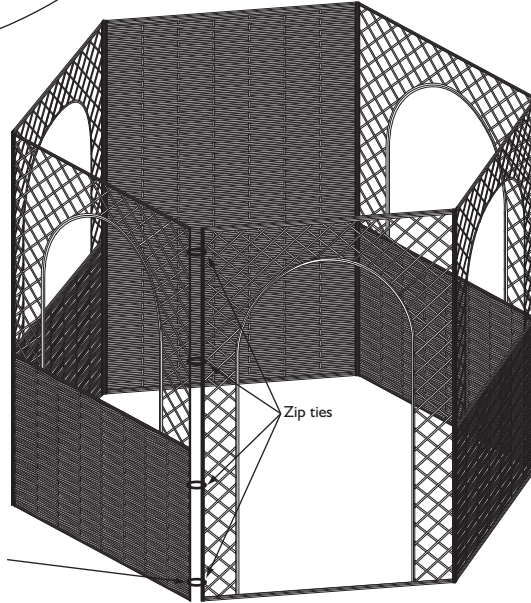

1. Wall panels assembly

Open out the six wall panels and arrange into a hexagon shape. Secure the two open ends together using four zip ties, do not fully tighten the ties at this stage.

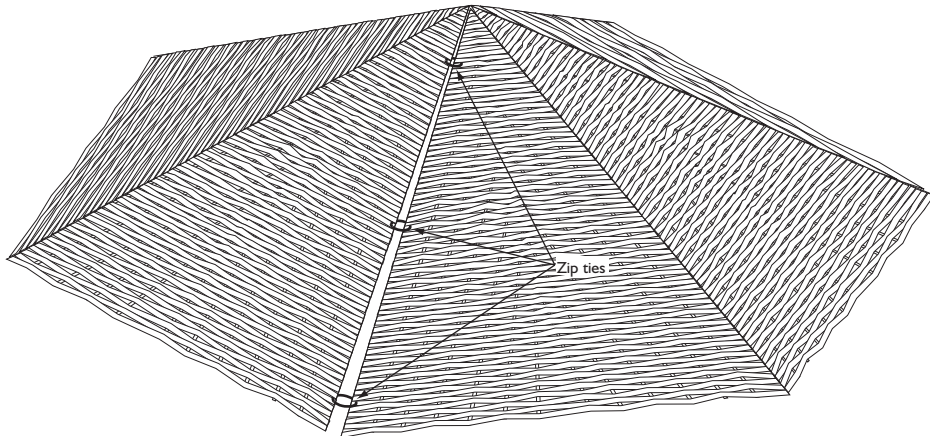

Join the 2 open ends together

Ensure the bottom zip tie is positioned about 150mm from the bottom of the 2 panels

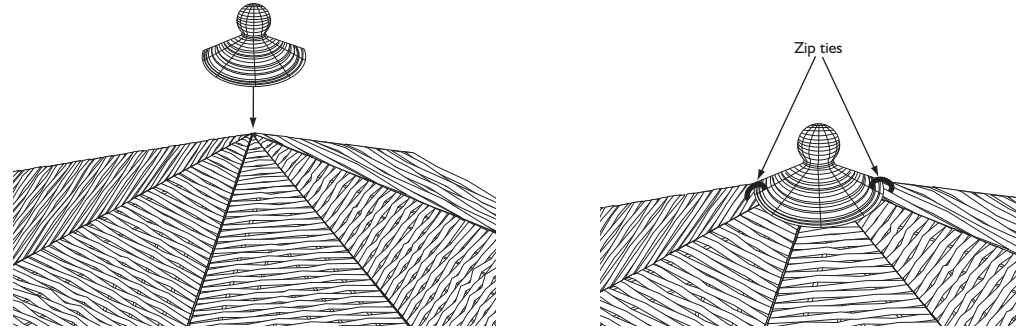

2. Roof panels assembly

Open out the roof panels and arrange into a six sided cone shape. Secure the two open ends using three zip ties, Do not fully tighten the zip ties at this Stage.

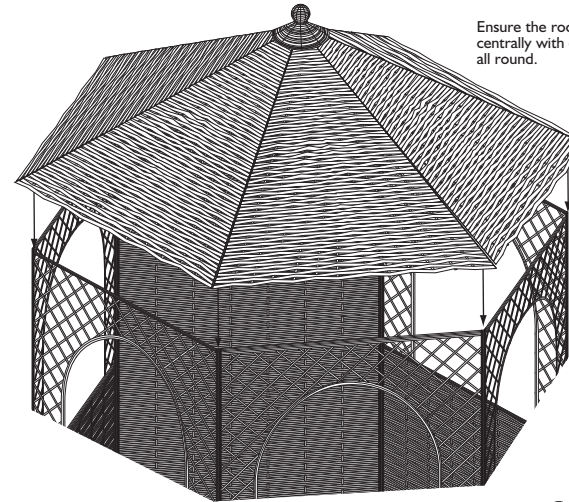

3. Finial

Position the finial Centrally onto the point of the roof panels and secure using two zip ties.

4. Roof to Wall panels

Lift the roof onto the wall panels, ensure that the corners of the roof line up with the corners of the walls. Adjust the wall panels making sure they are standing straight with the roof sitting centrally with an equal overhang all round. Once in position secure each roof panels to the wall it's sitting on using two zip ties.

Ensure the roof is positioned centrally with equal overhang all round.

Loop the zip ties through the roof panels and around the top frame of the wall panels.
